Gippsland CNC Cutting is a sheet metal / metal fabrication workshop that provides industries with quality products, at competitive prices, and within expected timelines. We aim to be the preferred supplier to our customers, a loyal and valuable customer to our suppliers, and a long term employer to our employees.

Quality Products Made Locally

Summary

Gippsland CNC Cutting has been operating since 2011 and has invested heavily in modern and technology advanced machinery to enable us produce high quality products to meet our customers requirements. We also invest our knowledge and resources into establishing our business as the leader in how sheet metal production parts are

produced. For Gippsland CNC Cutting Pty Ltd to be the driving force behind our customers challenging the norm, offering them the ability to produce items with the ease not available anywhere else.

Changing the way we cut parts

Description

Gippsland CNC Cutting pride ourselves in providing customers with high quality products at competitive prices and within expected timelines. Our latest advanced machineries enable us to be innovative always ensuring customers meet demanding manufacturing requirements and deadlines of today's market. Our precision equipment allows us to produce finished products, not just a raw cut component. We are also the only dedicated steel plate processor in the Gippsland region. We always use Australian Made Steel when available, keeping a large volume of plate onsite to enable faster turnaround.

Gippsland CNC Cutting services a wide range industries and have built very strong working relationships with our customers. We aim to be the preferred supplier to our customers, a loyal and valuable customer to our suppliers, and a long term employer to our employees.

One of Gippsland CNC's strengths is our ability to assist a business to design the product best suited for their markets, making the product more affordable and manufacturing friendly. Customers often use our ability to help bring their products to market faster than the competition. Whether the quantities are small or large, Gippsland CNC Cutting has the capabilities to meet our customer's most demanding needs.

Our plate stock generally consists of but is not limited to:

Mild Steel 250 Grade- 0.6mm up to 250mm

Mild Steel 350 Grade - 3mm up to 80mm

Galvanise Sheet - 0.55mm up to 3mm

304 and 316 Stainless Steel - 0.55mm up to 25mm

Bisalloy 80 - 5mm up to 50mm

Bisalloy 400 - 5mm up to 50mm

Mild Steel Chequer Plate - 2.1mm up to 12mm

Aluminium - 0.6mm up to 6mm

Industries Served

- > Manufacturing

Major Clients

- > Lendlease
- > Yallourn Energy
- > Loy Yang Power
- > Australian Paper

Products & Services

- > Laser Cutting - up to 16mm mild steel
- > Oxy Profile Cutting - up to 250mm mild steel
- > Hi Definition CNC Plasma Cutting - up to 32mm
- > CNC Press Brake
- > Drilling and Tapping
- > Welding
- > Pipe Bending
- > Sheet Rolling
- > CAD Design

Facilities and Equipment

- > 3600m2 Workshop Facility
- > 16 Tonne JDN Overhead Crane
- > 5T Forklift
- > 45ft Flatbed Semi Trailer
- > 300T Plate Stock
- > 3.5kw Co2 Laser 3m x 1.5m tables
- > Oxy Profile 20m x 4.2m table
- > Hi Definition CNC Plasma Cutting 20m x 4.2m table
- > 220T CNC Press Brake - 8 axis, up to 4.2m
- > Drilling up to 75mm hole
- > Tapping up to M48
- > Fronius TPS2700 Pulse MIG
- > Miller 350 Dynasty AC/DC TIG
- > Pipe Bending up to 50N/B
- > Sheet Rolling up to 3mm x 1200mm
